

Make your own goaty moneybox

Give everyone in your group a photocopy of this sheet and a thin piece of card (the back of a cereal packet is ideal). Stick this template onto thin card and then cut around the goat outline. Now follow the instructions on the template describing where to fold, where to stick and where to cut. Decorate your moneybox with felt-tips, wool, fur or tissue paper.

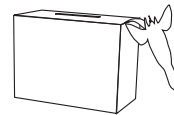

Remember

Don't cover your moneybox's slit or the goat won't get the money!

How to make your goat

We recommend collecting 5ps in your moneybox. They're small and light so you can fit loads in!

1. Glue whole template onto back of thin card (cereal packet ideal).
2. Cut round solid black outline of body, head and tab.
3. Cut out slit in top section of template (money slot).
4. Fold along all dotted lines.
5. Decorate goat box and head. NOT flaps. Give goat a woolly tail.
6. Decorate tab same colour as rest of goat.
7. Glue goat head to one end of tab.
8. Glue other end of tab to **INSIDE** of **FRONT** section of goat box so head sticks out.
9. Put glue on all flaps and fold into box shape. Glue flaps to inside of box. Ensure slit is on top.
10. Start collecting!
